PROFILE

CRM & Technical Operations Specialist with experience supporting US-based businesses by managing CRM systems, workflow automations, and backend operations. Experienced in building and improving CRM workflows, automating processes, integrating systems through APIs and webhooks, troubleshooting technical issues, and building custom web tools that help teams work more efficiently.

EXPERIENCE

CRM & Technical Operations Specialist — July 2025 – Present
American Financial Services, LLC

- Manage CRM operations across GoHighLevel, Zoho CRM, and partner platforms, including pipelines, calendars, workflow automations, lead routing, and opportunity management.
- Design, build, and optimize SMS, email, AI, and workflow automations that improve lead nurturing, appointment booking, follow-up campaigns, and operational efficiency.
- Configure and support AI Voice and Conversation AI workflows, including call routing, booking logic, AI summaries, notifications, and CRM integrations.
- Troubleshoot CRM systems, APIs, webhooks, third-party integrations, digital forms, PDF workflows, and backend processes through root cause analysis.
- Develop and maintain automation solutions using Zapier, Google Apps Script, and native CRM workflows.
- Manage Microsoft 365, Outlook, and Adobe Acrobat Sign, including email administration, fillable PDF forms, e-signature workflows, and document automation.
- Building a custom deal intake web application with Next.js, GitHub, and Vercel, featuring private file storage and GoHighLevel integration (in development).
- Built a DSCR loan calculator in Jotform using form calculation fields.
- Collaborate with cross-functional teams to document processes, implement new systems, and improve CRM performance, automation reliability, and operational workflows.
- Support CRM operations and backend automation for partner organizations, ensuring efficient funding workflows and system optimization.

Partner organizations: One Finance Source · Term Loan Solution · Alliance Capital Enterprises Inc.

Marketing Operations Assistant — May 2025 – July 2025
Finance Parrot

- Supported daily operations, executive tasks, and project coordination.
- Managed website updates, SEO improvements, lead generation initiatives, and cold email outreach campaigns.
- Monitored campaign performance and provided administrative support.

Executive Assistant to CEO — February 2024 – May 2025
One Virtual Desk

- Supported executive operations, project coordination, and business processes across multiple departments.
- Built and managed GoHighLevel workflows, CRM automations, lead capture systems, and follow-up campaigns.
- Maintained CRM data, pipelines, and client communication processes to improve lead management and conversion.
- Managed websites, SEO initiatives, and client support requests.
- Supported recruitment, sales, marketing, and client success operations.

EXPERIENCE (CONTINUED)

Content Management Specialist
November 2023 – January 2024

StratHauz

- Assisted with website management, SEO, and lead generation.
- Conducted keyword research and supported content marketing efforts.

Field Service Technician (IT)
January 2018 – Present

Self-Employed

- Provide technical support for hardware, software, and networking.
- Install, configure, and maintain IT equipment and systems.

TOOLS & PLATFORMS

FORMS & DOCUMENTS
Jotform, Adobe Acrobat Sign, Google Forms, Google Sheets, Microsoft Excel, Google Drive

WEB PLATFORMS
WordPress, Wix, Shopify, Investor Carrot, Google Analytics, Google Search Console

PROJECT & COLLABORATION
ClickUp, Asana, Monday.com, Notion, Slack, Google Workspace, Microsoft 365, Teams, Zoom, Loom

SELECTED PROJECTS

AFS Deal Intake Web Application (IN DEVELOPMENT)
A custom intake application for American Financial Services that collects deal submissions and documents and connects them to GoHighLevel.
Next.js · GitHub · Vercel · Private file storage · GoHighLevel API

AI Voice & Conversation AI Implementation
AI agents and call intelligence workflows covering call routing, booking logic, AI summaries, notifications, and CRM integration.
GHL AI Agents · Conversation AI · AI Voice · OpenAI

Jotform DSCR Loan Calculator
A Debt Service Coverage Ratio (DSCR) loan calculator built in Jotform to support loan scenario conversations.
Jotform · Calculated Fields

GoHighLevel CRM Workflows & Lead Nurturing
Re-engagement and nurturing systems for aged and inbound business loan leads, using SMS, email, tagging, and follow-up workflows.
GoHighLevel · SMS Automation · Email Automation · Round-robin Calendars

Google Sheets, Apps Script & Webhook Integrations
Spreadsheet-driven data processes and integrations that connect CRM records with Google Sheets through Apps Script, webhooks, and Zapier.
Google Sheets · Google Apps Script · Webhooks · Zapier · Bulk Import

CRM Infrastructure, Troubleshooting & Process Automation
Day-to-day backbone work: keeping CRMs, integrations, forms, email, and e-signature workflows reliable for AFS and partner organizations.
GoHighLevel · Zoho CRM · Microsoft 365 · Adobe Acrobat Sign · Zapier

EDUCATION

Western Institute of Technology
Information Technology (Undergraduate)
2015 – 2020
